TELINDUS CUSTOMERS WILL BE ABLE TO BENEFIT FROM THE 5G AS OF OCTOBER 23RD, 2020

LUXEMBOURG – October 16th, 2020 **–Telindus is proud to announce its 5G launch for business customers on October 23rd, 2020, as well as the availability of the new iPhone 12 and iPhone 12 Pro, devices on which this 5G network is already certified.**

"Following a number of different phases, we are pleased to announce the launch of our 5G. A new chapter will begin on October 23rd and we will build this new equation, in which 5G will be an innovation factor, with our customers. This new technology enhances the convergence between telecommunications and information technology. Our role, beyond mobile phone services, consists in supporting companies and institutions in accessing new growth opportunities. We collaborate with them to explore new uses beneficial to all", explains Christian Haux, Chief Enterprise Market Officer at Telindus.
