- Master's degree in electrical engineering or automation
- At least 3 years of experience in electrotechnics and automation
- Good knowledge in automation and programming is considered as an asset.
- Proficiency with solidworks and solidworks electrical is considered as an asset.
- Practical approach, problem solving
- Organised and methodical
- Innovative and creative
- Ability to work independently, good team player
- Language skills: fluent in English/French or English/German (written and oral). A third language (French or German) is considered as an asset.

Key responsibilities:

- Electrical design of our equipment
- Choice of the electrical components
- Realisation of wiring diagram
- Realisation of BOM (bill of materials)
- Realisation of technical documentation
- Development of our equipment

We offer a position in an innovative and creative environment with strong relationships with customers and other departments of the company (Supply-chain, Purchasing, Assembly).

The candidate will be offered a CDI. The position is based in Ellange, Luxembourg.

If you are interested in taking this challenging opportunity and wish to take part actively to our future development, please send your application to job@gradel.lu (cover letter + CV).

Only shortlisted candidates will be contacted. The information you provide will be treated confidentially and will only be disclosed to employees involved in the recruitment process. The selected candidate will be requested to provide a criminal record.
