

We are recruiting ■

INTERNSHIP

Java Developer Fullstack (m/f) ■

Development at SEQVOIA is special in many ways. We are experts in our fields and rely on a high level of competence. Our environment demands constant innovation - that's why we value creativity and independent thinking and offer you the flexibility to develop both.

what you will do

- Analyse business requirements in co-operation with the team
- Implement conceptualised features
- Propose solutions to improve the existing platform
- Write technical documentation

what you should know

- Problem-solving skills
- Desire to deal with financial topics
- Mastery of these technologies: Java 8, Hibernate, Spring (must: Spring-Core, optional: Security, Batch), SQL programming, Git, Maven, Unix, HTTP
- Optionally - knowledge of: GWT, Aspose, Jasper, Camel, Oracle, Docker, Ansible
- Desire to evolve in a continuous delivery environment (Jenkins, Nexus, Sonar, NeoShell)
- Communication skills in French & English (written at least)

what makes you stand out

- You are detailed and eager to learn
- You like to work on problems and make it your goal to solve them

what we offer

- Experience a growing innovative RegTech company in Luxembourg
- Gain first work experience in an agile environment
- Be part of a dynamic, entrepreneurial structure
- At the end of the mission, SEQVOIA aims to integrate successful candidates into the team via a permanent position or collaboration with our preferred consultancy partners

contact
